ON INSIDE PAGES

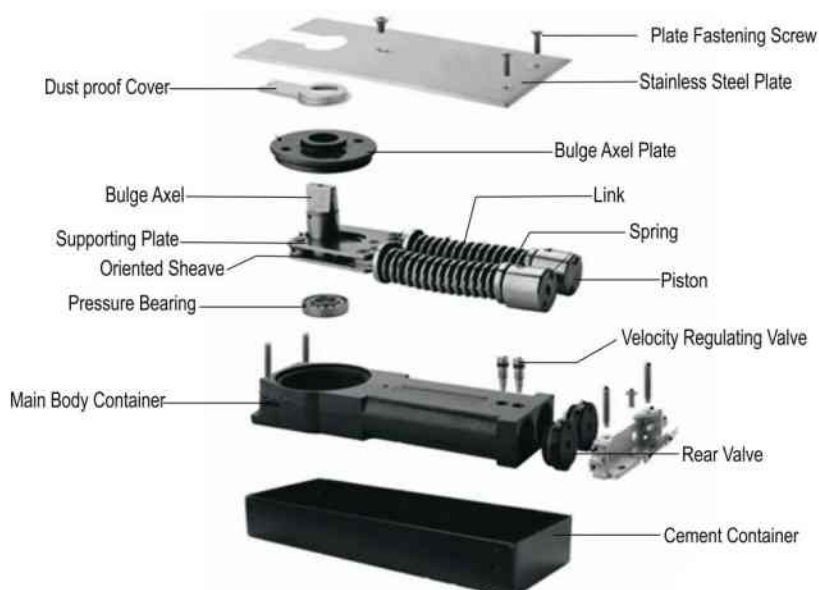

Welcome to the range of "VAPORE" premium architectural Hardware. Some products are proven and some are fresh & newly developed. And if you still need customized design just drop us a word and we will cater to your demand promptly.

All fittings are designed as per international safety standards, as we ensure a sturdy facade in most severe condition in exterior and interior application.

Construction & Technical Details

- ◆ One unit for both single & double action door where surface mounted closer can't be fitted.
- ◆ High grade cast iron mechanism body is housed within a galvanized steel loose box which is zinc protected & painted for corrosion resistance.
- ◆ Internal mechanism components utilizing heat treated high alloy steels & ball bearing of optimum efficiency.
- ◆ Suitable for timber, metal & tempered glass doors.
- ◆ Built in pressure relief valve protect the closer from rough use. Closer mechanism totally immerse in hydraulic fluid.

VAPORE push the boundaries of Smart Bathroom & Home to an inspirational design possible for every person on this planet through Cutting edge design & innovation in interior as well as exterior like :- **TOUGHENED / SAFETY / REFLECTIVE / DGU / LAMINATED / LACKED / DESIGNER GLASS & LOOKING MIRROR** with complete Installation Solution of any glass work. We have done many big Projects & Domestic sites in Haryana/ Punjab & Himachal Pardesh.

GLASS (SAINT GOBAIN) HARDWARE (VAPORE)

WHAT IS TOUGHENED GLASS?

Toughened glass, also known sometimes as tempered glass, is a type of safety glass that is often used in circumstances where standard glass would pose a potential danger if broken. When tempered glass is manufactured, it is heated to extreme temperature and then rapidly cooled. This makes it a lot harder and tougher than standard glass. This also changes the way tempered glass breaks. Unlike standard glass that breaks into sharp shards, tempered glass breaks into small oval-shaped pebbles. This safety feature is why tempered glass is used to make car windows. Public structures are also required to use tempered glass windows to satisfy the building codes.

WHAT IS LAMINATED / SECURITY GLASS?

Laminated glass is also a type of security glass that consists of layers of plastic and toughened glass. In the event that laminated glass is broken, the shattered pieces are held in place by an interlayer that's in between two or more layers of glass. The glass crumbles into small pieces but will remain bonded. The characteristic "spider web" shaped crack typically occurs in laminated glass. Laminated glass is most commonly used to produce vehicle windshields.

MASKING TAPE : Best Quality Strong Adhesive A Trusted Name world wide

DOUBLE SIDED STRUCTURAL GLAZING TAPE

Double Side Glazing Tape
PRICE : 115.00

ADHESIVE	ACRYLIC
ADHESIVE CARRIER	ACRYLIC FOAM
THICKNESS	1.2 mm & 2.0 mm
LENGTH	6 Mtr. & 8 Mtr.
TAPE COLOR	GREY
LINER	RED PE FILM
PACKING	100 ROLLS PER CARTOON

Glazing Double Side Tape

- Durable, high performance two-sided pressure sensitive acrylic foam tapes.
- A high strength, clear, UV resistant double-sided film.
- Has high adhesion and shear strength.
- Heat and solvent resistant.
- A good general purpose, permanent glazing tape.

*Customized size available according to specific order.

 Manufacturing at : Rajkot (Gujrat)
 Display : Plot No.1, Sai City, Derabasi, Punjab
 Corp. off : SC0-303, FF, Sector-38D, Chandigarh
